

## **ATM Security Precautions**

**Customers are advised to exercise care when using an automated teller machine (ATM). The precautions you should exercise are to:**

- 1. be aware of the surroundings when using an automated teller machine, particularly during the hours of darkness;**
- 2. be accompanied by another person when using an automated teller machine, particularly during the hours of darkness;**
- 3. refrain from displaying cash, to place cash in a pocket as soon as a transaction is completed, and to count cash in the safety of a locked enclosure such as a car or home;**
- 4. use another automated teller machine or return at a later time if anything suspicious is noticed when using or considering using an automated teller machine; and**
- 5. report all crimes immediately to the operator of the automated teller machine or to local law enforcement officials.**
